LOUVER

A wide range of coordination mouldings in multiple colors and designs are available with easy and clean finish and installation.

(Cutting Strips)

It is a moulding that covers the cutting plane of the length

L51

Special Features

Eco Friendly Materials

Danube Home Louvers are crafted from eco-friendly material ensuring a safe interior space with no sick house syndrome.

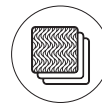

Charcoal Powder

Danube Home Louvers are much safer material for children, since atopy occurrence rate caused from harmful chemicals is very low by adding charcoal powder on the product it self.

Shiplap System

Danube Home Louvers are easy to install with a simplistic shiplap system with rabbit joint, which is easier than tongue and groove interlocking system.

Unique Designs

Our range of Louvers can be purchased in a wide selection of designs spanning marble, Stone, woodgrain effects and plain color that provide a stunning solution for any style of room.

Complete Wall System

Danube Home Louver is a complete wall system that includes a wide range of coordinating mouldings designed to cover the expansion space at the walls and transitions to other walls.

Charcoal & Decorative Moulding

SPECIAL FEATURES

Polystyrene moulding

Wood and MDF moulding are weak in moisture and deform easily while polystyrene moulding is free of deformation, warping or decay due to moisture making it perfect for diverse applications and spaces.

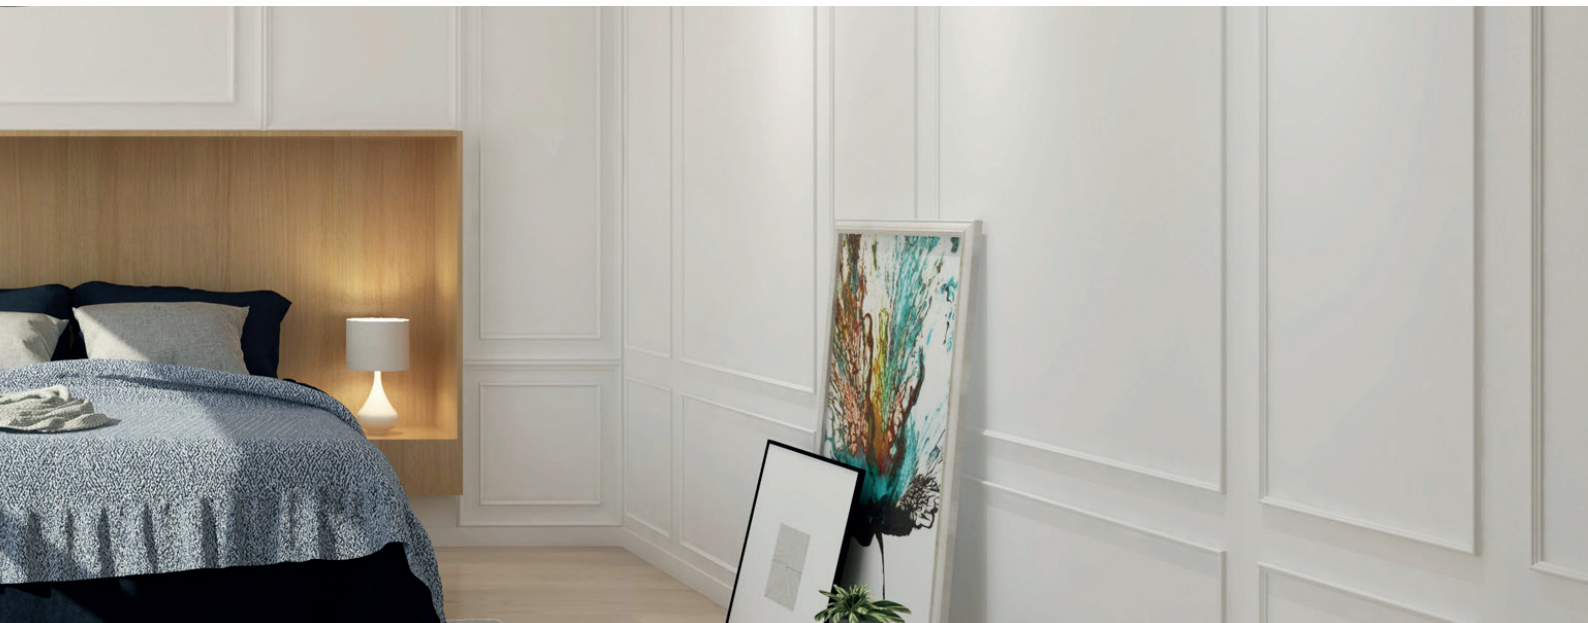

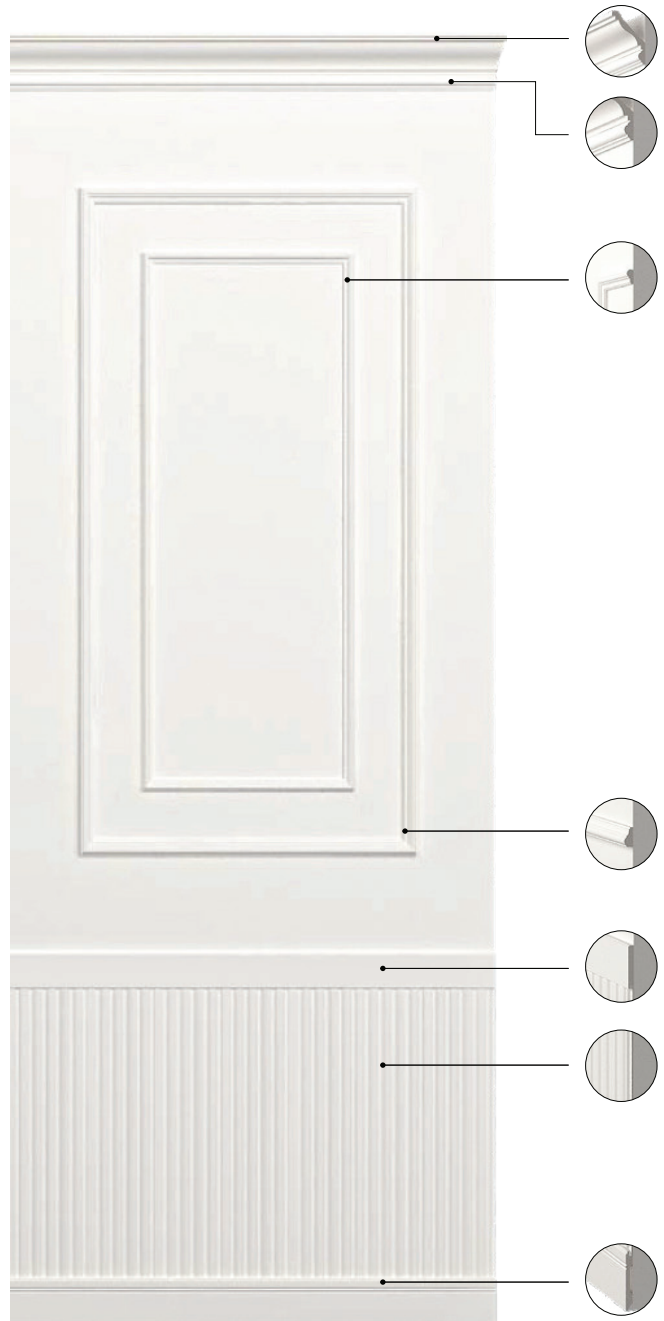

From modern style to classic

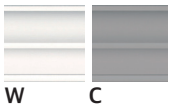

It provides for the application of diverse and unique designs by reproducing beautiful designs and antique wood texture on the polystyrene moulding. It also offers an excellent economic advantage over MDF or wood moulding in terms of price.

Eco-friendly

Polystyrene is used for beverage container, crisper of the fridge etc, since it complies with the food hygiene safety specification in accordance with the U.S. FDA. In particular, polystyrene is a recyclable, eco-friendly material suitable for interior molding, as it is excellent for insulation and moisture.
